

Volume 1

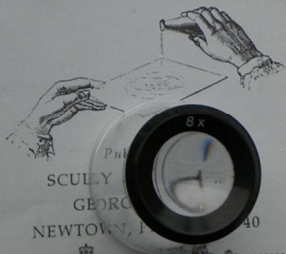

Number 1

The COLLODION JOURNAL

QUARTERLY.

Devoted to the advancement of
wet-plate photography.

January, 1995.

SCULLY &
GEORGE
NEWTOWN, I

A complete **Collodion Journal** set in excellent condition for sale! Yes, that's right, *that* Journal! All 24 issues from the tiny small run that ran from 1995 to 2002. This extremely rare set is totally complete with tipped in inkjet prints and assorted tipped in artifacts. This is a very fun to read treasure trove of reprinted 19th century wet-plate photography information and illustrations combined with modern day treatises from the early beginnings of the current wet-plate collodion photography revival. These are best considered as a collectable historic artifact for researchers interested in the history of wet-plate collodion photography and the early birth pangs of the modern WP movement. They are not recommended as a working guide for the beginning wet-plate student. But still, this is the opportunity of a lifetime to be the only one on your block or more likely in your state or nation to have a complete set of the much celebrated Collodion Journal for only \$1800. Really! I will actually sell the whole thick pile of them for that give-away price. But, don't you worry Camp Tintype workshop attendees, we have another complete set of originals for you to leaf through if you like, while you are here. Only at Camp Tintype!
